

# POLICE CONTRACT REFORM

---

When a city hires police officers, it signs a contract with the police union that sometimes limits the ability to remove officers who abuse their power.

Let's invalidate this now. Ensure that negotiations limit themselves to pay and benefits and working conditions like everyone else. Ensure that new negotiations cannot barter away the safety of the public.

---

**“Any part of a police union contract that limits investigation, discipline or termination of officers for abuse of power is null and void.”**

---

Go here if you are a registered voter and want to sign:
